Details:	No. of participants - 62

Feedback

Technical Questions & Comments

1. lightning creates surge voltage or surge current.??because one of your slide says 10/350us is TOV.
2. If we are using type 1 spd, whether it provide type 2 and type3 level protection?
3. Earlier we have seen current protection devices which will be connected in series now SPD is voltage protection device hence it is connected in parallel is it true

General Comments about the subject and content of the training

1. Very nice class
2. The class was very understandable
